MM Docket No. 99-199  
RM-9564

**Adopted: May 19, 1999**

1. The Commission has before it the petition for rule making filed jointly by Metro Com Corp, licensee of Station WKKN(FM), Cordele, Georgia, Broadcast Equities Corp., permittee of a new station at Montezuma, Georgia (BPH-970925NH), and Tri-County Broadcasting Company, licensee of Station WQSY(FM), Hawkinsville, Georgia ("Metro Com, " "Broadcast Equities," "Tri-County" or "petitioners"). Petitioners request the substitution of Channel 236C3 for Channel 252A at Cordele, the modification of Station WKKN's license to specify the higher class channel, the substitution of Channel 280C3 for Channel 236A at Montezuma, the modification of Broadcast Equities construction permit to specify the higher class channel and the substitution of Channel 252C3 for Channel 280C3 at Hawkinsville and the modification of Station WQSY's license to specify the alternate Class C3 channel. The petitioners state their intention to promptly apply for their respective channels, if allotted.<sup>1</sup>

2. In support of the proposal, petitioners assert that the public interest would be served by the upgrading of both Station WKKN at Cordele and the proposed new station at Montezuma from their present Class A channels to the proposed Class C3 channels. According to the petitioners, the grant of their proposal will enable Station WKKN to increase the population it serves from its present 23,035 persons to 70,186 persons and the future Montezuma station to provide service to 74,978 persons from its presently estimated 11,236 persons, for a total increase in population served of 107,038 persons. Petitioners also note that the substitution of channels at Hawkinsville will result in Station WQSY serving 65,548 persons instead of its present 69,403

<sup>1</sup> According to the petition, the three petitioners are commonly owned by 100% stockholder James Popwell, Sr. Nevertheless, Metro Com and Broadcast Equities state their commitment to reimburse Tri-County for the reasonable and prudent expenses that may be incurred in changing its licensed channel.

persons, or a loss of service to 3,955 persons. Petitioners recognize that the proposed allotments at both Cordele and Montezuma are to non-adjacent higher class channels. However, they state that the proposal constitutes an incompatible channel swap and thus each of the station's authorizations can be modified in rule making pursuant to Section 1.420(g)(3) of the Commission's Rules without accepting competing expressions of interest.

3. We believe the proposal advanced by the petitioners warrants consideration since the allotment of Channels 236C3 at Cordele and 280C3 at Montezuma could provide each community with a wide coverage area FM service and enable the stations to provide service to a greater number of people. Further, a staff engineering study has confirmed that the proposal does constitute an incompatible channel swap in that the proposed channels are the only Class C3 channels which can be allotted to each community. Therefore, we also propose to modify the licenses of Stations WKKN and WQSY at Cordele and Hawkinsville, respectively, and the construction permit for the new station at Montezuma without requiring the petitioners to specify an additional equivalent class channel for use by other interested parties or to accept competing expressions of interest in use of the channels as proposed herein. However, in light of the fact that the substitution of channels at Hawkinsville will result in a loss of service to 3,955 persons, we request that the petitioners provide a study showing the reception services which will remain in the loss area if Channel 252C3 is substituted for Channel 280C3.

(b) With respect to petitions for rule making which conflict with the proposals in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to allot a different channel than was requested for any of the communities involved.

4. Comments and Reply Comments; Service.
